- Several actual photos and/or videos

# What can PowerPhotos do for you?

- Manage photo libraries
  - Create
  - Add
  - Remove
  - Duplicate
  - Merge
  - Copy
  - migrate

# Free versus paid versions

## **Unlicensed**

- Create New Libraries
- Use existing libraries
- Search libraries
- Find duplicates only
- Copy 20 items at a time
- Preview merge libraries only
- Migrate 2 libraries at a time

## **Licensed**

- Create new libraries
- Use existing libraries
- Search libraries
- Mark duplicates for deletion
- Unlimited photo copying
- Merge libraries
- Unlimited migrate libraries

# Network versus local library storage

- Just don't do it!
- Photos is not designed to be stored on anything but a mac formatted drive
- Can use a local shared library on on another mac

# About system photo library

- Only 1 library can be designated as system library
- Made available to other applications like mail, messages
- Designated iCloud sync library
- Use photos preferences to set
