

Computer Backup

David Rhynas

Why Backup?

It is never a question of
if you need a backup
but *when*

How to Backup?

Everything I learned
about backups was
through MUGOO

What's Important to Me?

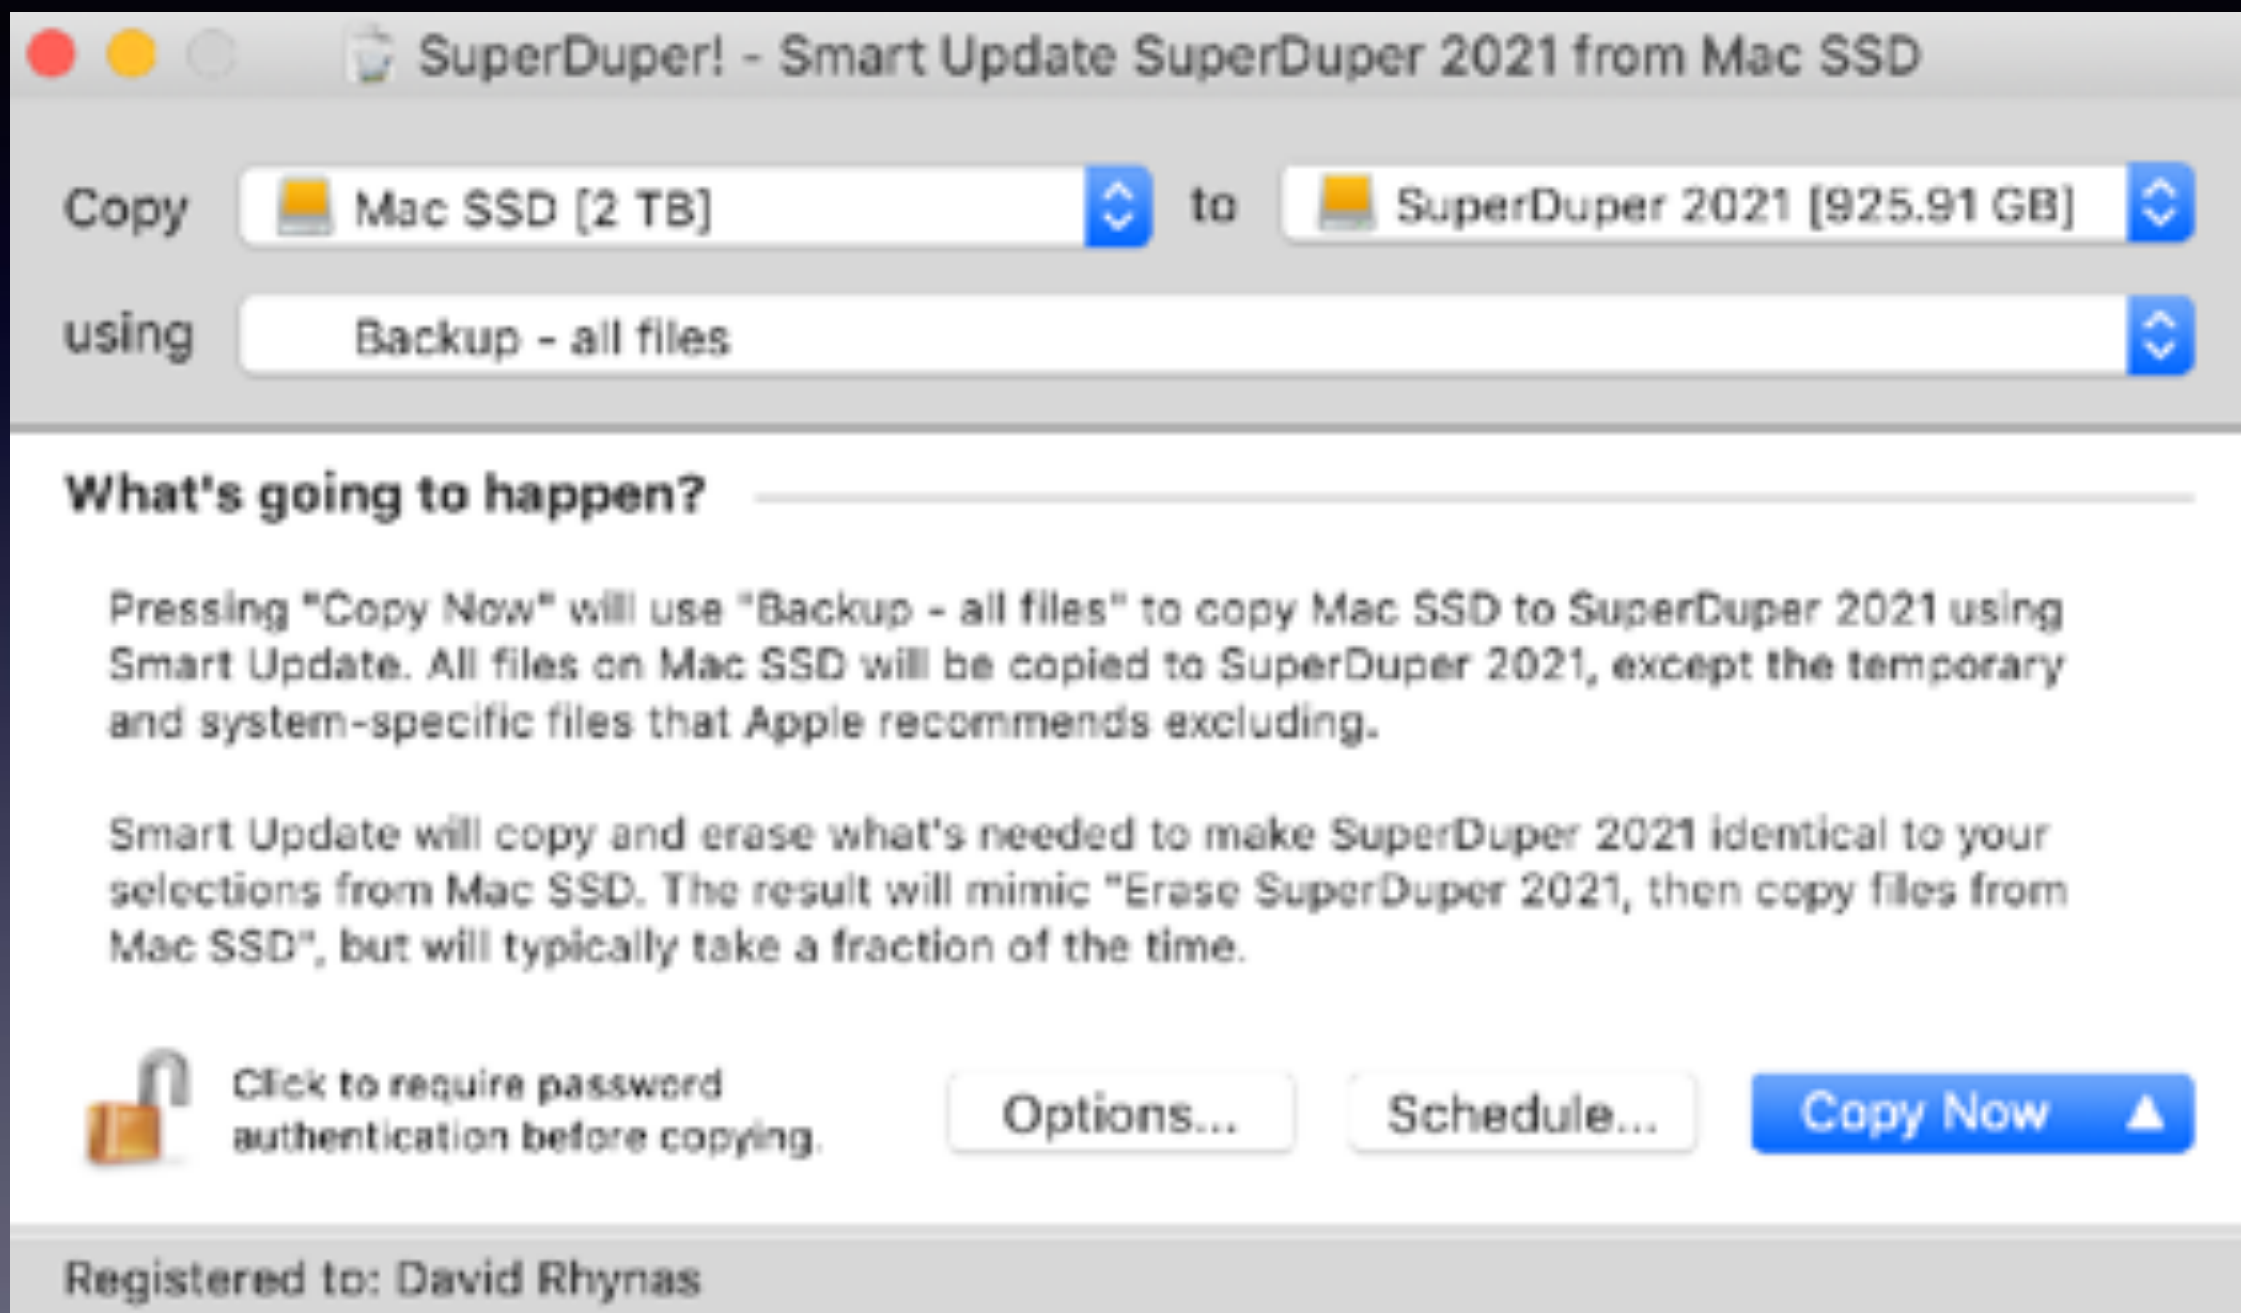

- Photo Libraries, especially family and adventure travel
- Music Libraries, all Apple Lossless or high resolution 192 kHz / 24 bit
- Financial Records, such as last 6 years of tax returns
- Documents from consulting contracts, volunteer activities and recreational

Protecting From?

- System hard drive failure
- Accidents like a coffee spill ... oops!
- Other external drive failure
- Theft or loss of your computer
- Unwanted code, like viruses or ransomware
- Loss of computer due to fire or flood

Shirt-Pocket SuperDuper!

- Creates a *fully bootable backup*
- Clear, friendly user interface
- Built-in Scheduler
- Supports macOS Big Sur and Monterey
- Perfect complement to Time Machine
- Each night I automatically copy to two separate drives

Scheduled Copies

Name

Smart Upd

Smart Upd

Automatically copy Mac SSD to SuperDuper 2021:

☒ On the following schedule:

Copy every: 1st 2nd 3rd 4th week of the month

On: Sun Mon Tue Wed Thu Fri Sat

Start copying at: 1:30 AM

☐ When you connect SuperDuper 2021 to your Macintosh

☐ Show error if Mac SSD or SuperDuper 2021 is missing

What's going to happen?

Daily at 1:30 AM, "Backup - all files" will be used to copy Mac SSD to SuperDuper 2021. Smart Update has been selected as the "During copy" option. Smart Update will copy and erase what's needed to make SuperDuper 2021 identical to your selections from Mac SSD. The result will mimic "Erase, then copy", but will typically take a fraction of the time.

Cancel

OK

What's going to happen?

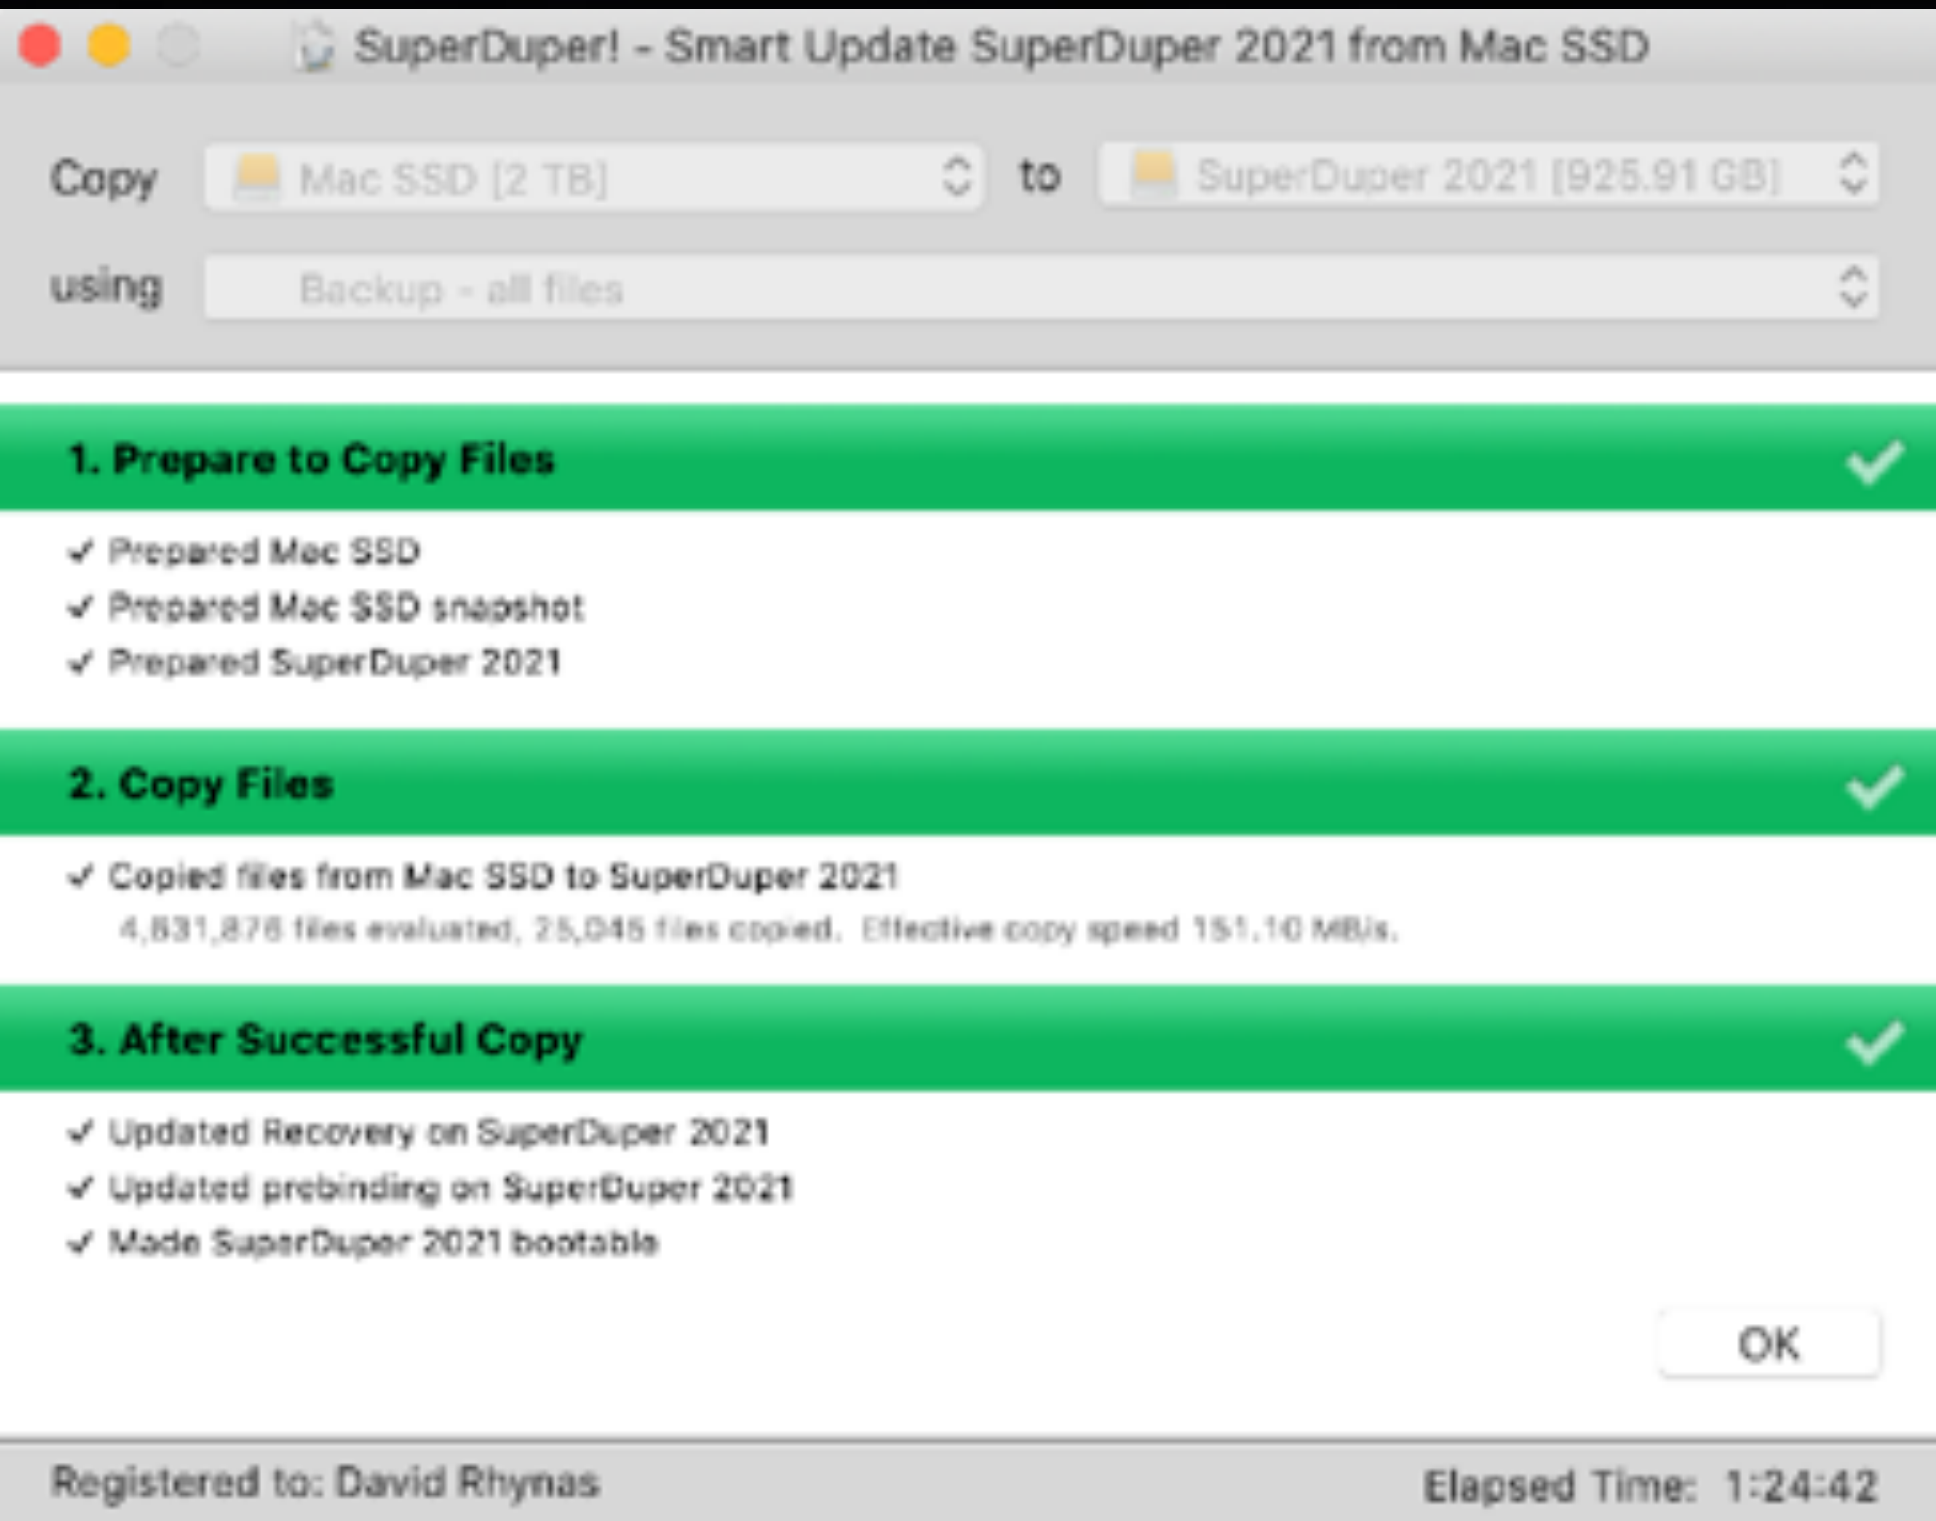

Daily at 1:30 AM, "Backup - all files" will be used to copy Mac SSD to SuperDuper 2021. Smart Update has been selected as the "During copy" option. Smart Update will copy and erase what's needed to make SuperDuper 2021 identical to your selections from Mac SSD. The result will mimic "Erase, then copy", but will typically take a fraction of the time.

Edit...

For External Drives

- These are used for archival and don't change very often
- I make a manual backup twice per year

What About Theft or Fire?

- Carbonite offers backup services for home use and businesses
- Available for macOS and Windows
- Backs up documents, e-mails, music, photos, and settings
- Updates automatically without any additional action from you
