

# **CleanUp Photos Presentation**

**MUGOO Zoom Meeting**

**LeRoy Lees**

- Jason Snell IN CONTROL Book
- Why??
- Apple Books \$ 20.00 Cdn
- Complete - Covers Everything
- Available at Apple Book Store
- Why - Because there are so many new features that are nice to learn but impossible to teach

# Major Feature Found in Cleanup in Photos

- removes distractions from backgrounds
- First use of Apple Intelligence that we see...
- Usage Description.....
- Bodies, Cars, Wires, Shadows
- Don't remove everything. No need if you are good photographer
- Easy adjustment of Color Saturation and Brightness
- Cropping

# Upcoming Features in PHOTOS

## Now and in the Future

- Prepare movies with text request
- Visual Adjustments
- Rotation and Filters
- External Apps can be used
- Shared Libraries - Main and Shared
- Auto colour and brightness adjustments

# System Requirements

## Mac OS and iPadOS and iPhoneOS

- M-Series iPads and Macs
- iPhone 15 Pro, ProMax
- Sequoia and iOS18 which are covered in Jason Snell's book
- Software is loaded automatically when you select EDIT
-

# Considerations

## What Needs are Met

- These aren't Court Documents
- Part of thousands of photos we now have
- More important for processing personal photos for easy access
- There are better methods, but they all cost MONEY and TIME
- Alternative methods saved for special photos
- Results look great on AppleTV with large screen

# Questions

## Jason Snell Book and CleanUP

- Who uses Apple Silicon
- Who is interested in Apple Intelligence capabilities
- Who has played with iOS 18 on iPad
- How many photos do you have in your Digital Photo Library
