

After Capture - a few more things

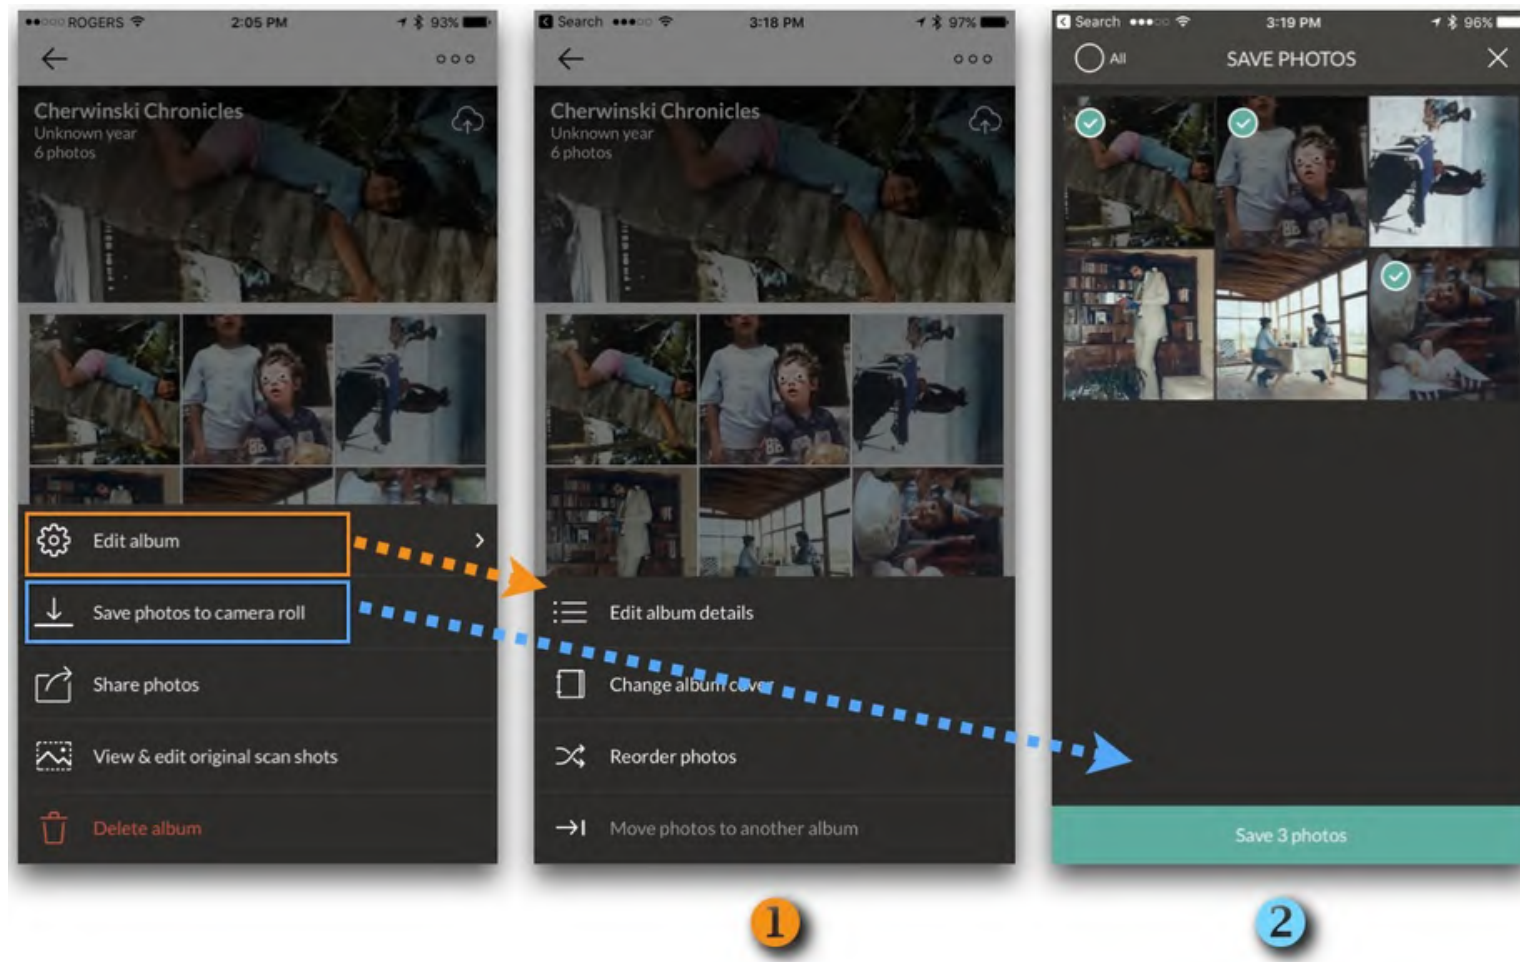

- ▶ 1. Give each photo a title
- ▶ 2. Include information about subject & location & time
- ▶ 3. Options to Rotate, Crop and apply different filters

More ALBUM Options

MORE Album Options

- ▶ 1. Edit the Album Title
- ▶ 2. Save the Album to the Camera Roll
- ▶ 3. ReOrder the Images - Move to other Albums
- ▶ 4. Titles DO NOT transfer over

Costs for Software | Cost for online storage

- ▶ Full version is \$ 4.99 at iTunes Store (free also available)
- ▶ Sharing is an Extra Cost item on the Cloud \$ 27.00/year
- ▶ Cloud gets you multiple access of all albums to multiple devices
- ▶ Entire Collection has online access from your Mac
 - ▶ Automatic backup of all your albums
 - ▶ Auto backup of photos
 - ▶ Auto backup of metadata

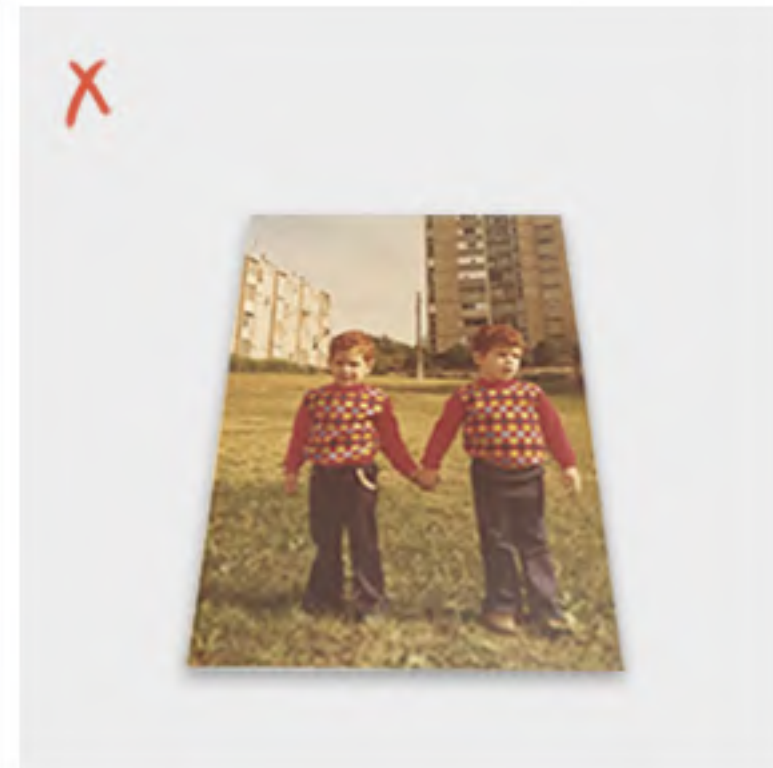

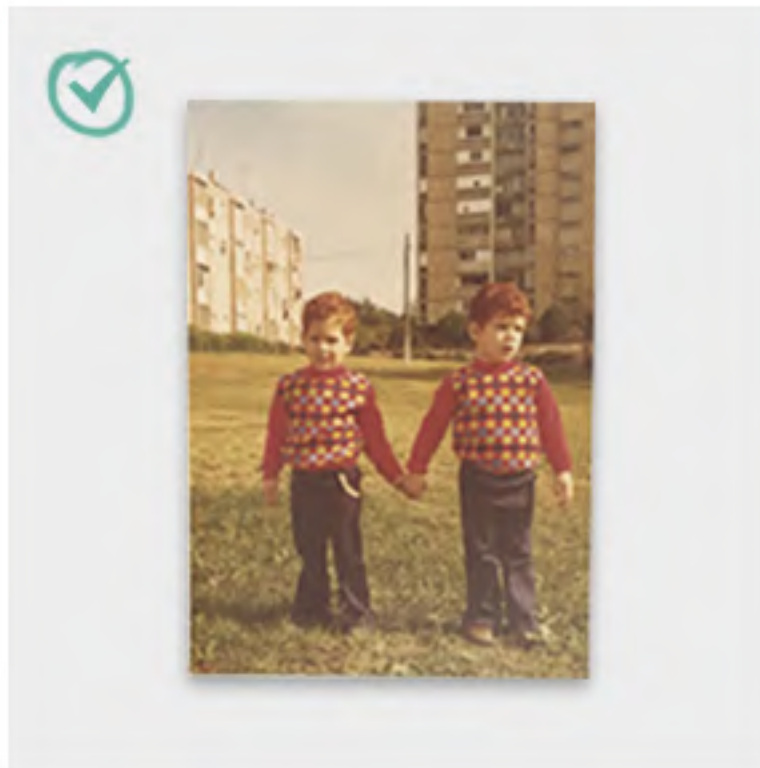

Why would you want Photomyne

- ▶ Its for access by all your personal devices
- ▶ You might say *-lets look at 1984*, on iPad while having lunch
 - ▶ you are not likely to do that with a Photo Album
- ▶ Camera Roll Images can be edited in iPhoto
- ▶ Camera Roll Images can be placed into a iPhoto Book
 - ▶ iPhoto Book can be better organized that original
 - ▶ Poor images can be eliminated

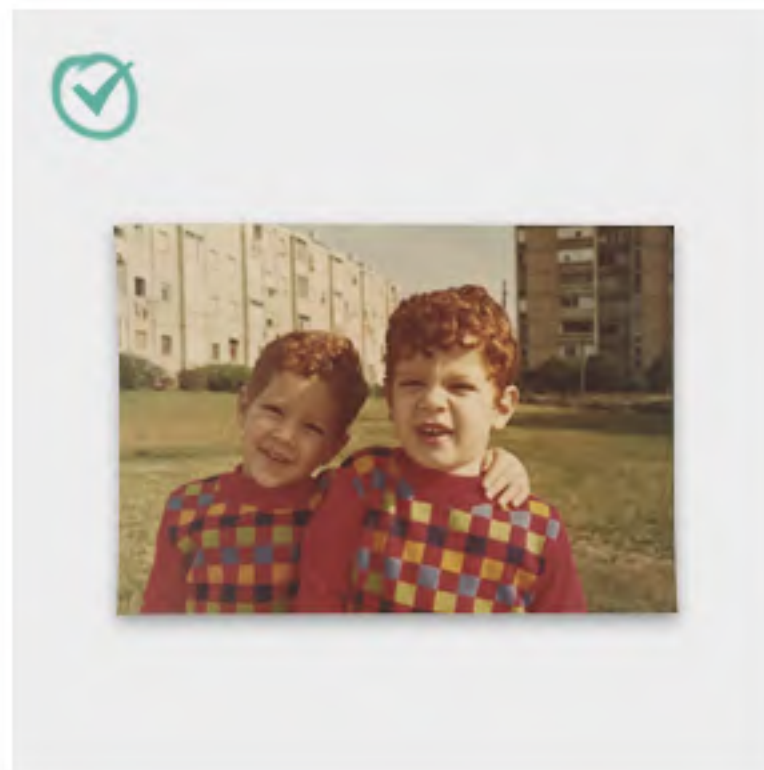

Latest Tips - HOW TO SCAN LIKE A PRO w/o manual cropping

- ▶ 1. Hold your device as parallel as possible to the photos
 - ▶ This will give you high resolution scans without trapezoid effect
- ▶ 2. Make sure all four corners of each paper photo fit inside the scanning screen.
- ▶ 3. Try to take the closest shot possible
 - ▶ Parallel to the surface

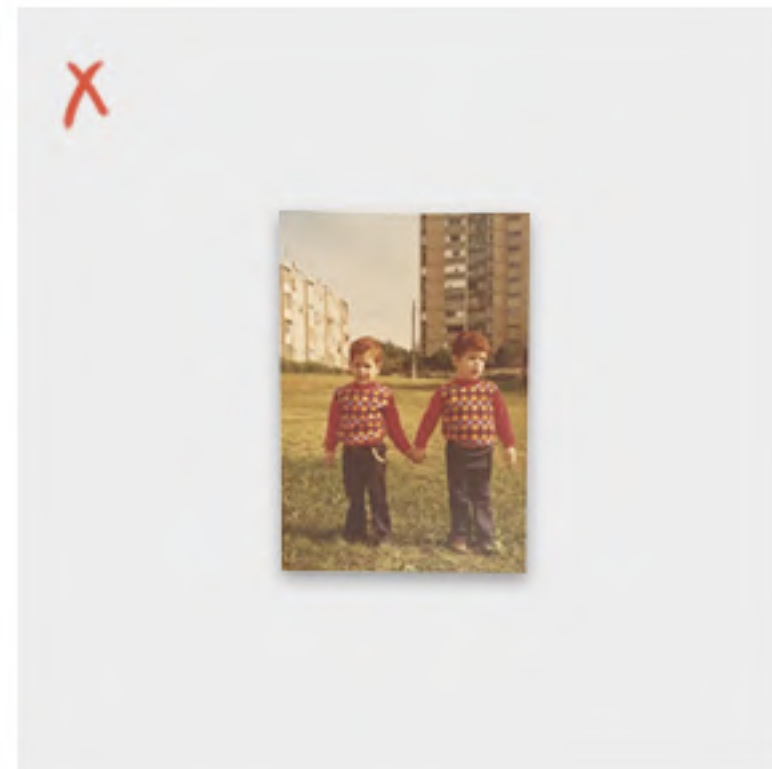

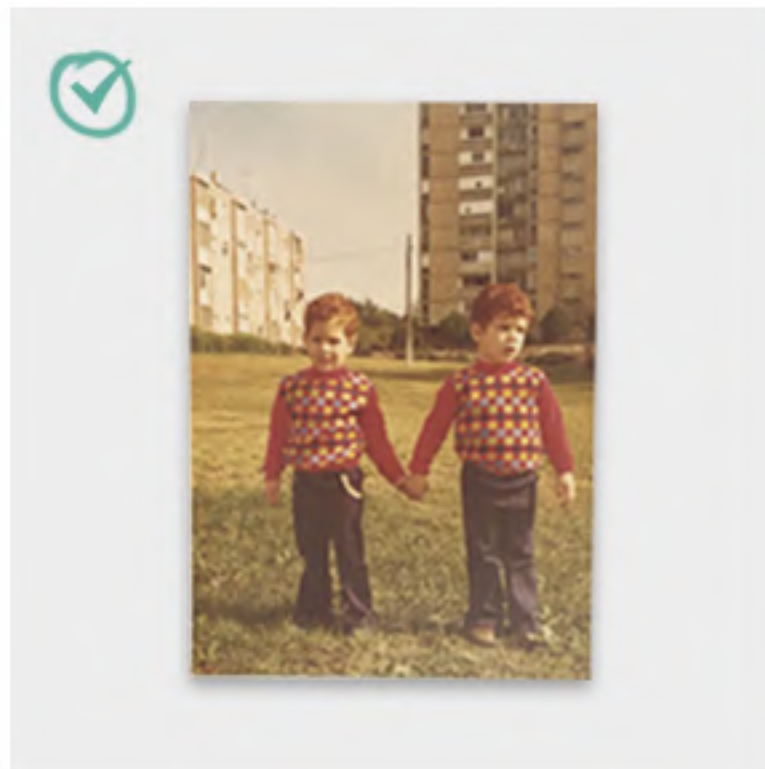

Hold your iPhone as parallel as possible to the photos

Make sure all four corners fit inside the scanning screen

Try to take the closest shot possible

My Personal plans for PHOTOMYNE
